POLLOCK PUSHING BRIDGE PROJECT

Finance Committee Perfects the Ordinance for the Council.

The Finance Committee last night perfeeted the free bridge ordinance, and it will be reported to the Council for action next Monday night,

tion next Monday night.

Inasmuch as it involves an expenditure of money, it will have to be on the table for three days, so it is likely that the body will be called in special session later in the week to consider it.

The patron of the measure is anxious to get it through the present Council which dies on September 1st.

The business scople down town generally seem anxious that the bridge shall be completed at an early day, because they believe it will tend greatly to enhance business in both clies.

To Have Chorus Choir

The First Presbyterian Church is to have a chorus choir. Arrangements looking toward this important step have aiready been made, and beginning September 1st, this new feature will be inaugurated.

The quartette choir, which has been in vegue for so many years in this city, is being rapidly supplemented in many of the churches by large choral organizations.

Mr. and Mirs. W. H. O. McGehee, so long connected with the choir of Grace Episcopal Church, have been engaged to organize and conduct the choir of First Presbyterian Church, and the indications are that this choir will soon take a high place among organizations of a similar character in Richmond.

Don't Blame Nature But investigate.

Many claim they are nervous "by nature." when it is really only because they are slaves to the coffee or tea habit, and this is easily proved by cutting out the coffee or tea for 10 days and using well bolled Postum Food Coffee instead—then comes the change.

"I seemed endowed by nature with a nervous constitution," says a lady of Knoxville, Tenn., "and, although I felt tea and coffee were had for me the force of habit was so strong I just couldn't give them up.

"Some one suggested that I try cereal coffee, but I remembered what insiple drinks we used under that name during the Civil War, and so without ever looking into the subject or realizing what progress science has made in this direction I just wouldn't give Postum a trial until finally the W. C. T. U, in our city started an exchange where there were so many calls for Postum II was served regularly and many were thus induced to try it, myself among the number. How delighted I was to find it so asreeable, delicious and satisfying. As I had suffered from nervous prostration a change from tea and coffee was impersive, but had used the Postum faithfully for a all these troubles disappeared after I few weeks.

The convention of the Missouri Democrats, which met at Jefferson City last week, and which was controlled by the reform element of the party, under the lead of young Circuit Attorney Joseph W. Folk, who was named for Governer, made a strong designation in favor of the general primary principle.

Here is the plank in the platform on that subject:

"We believe in pure elections and an equal apportunity for every member of a party to participate in the selection of his party's candidates, and that the time has come for the enactment of a general primary election law, applicable to the whole Hate, which shall be fair and just to all, as economical as possible to the Male and to the candidate, and gring equal advantages to rich and poor alled who may wish to after themselves for the suffrages of the people.

The little corrugated iron house, built around the Houden statue of Washington on the Captol Square, and in which the valuable piece of art work was placed on Saturday, is still uncovered, though the roof will be put on to-day. The beating rain fell in torrents on the box that holds the treasure Saturday night and yesterday, but those in charge say this was rather a benefit, as it served only to wash from the marble the dust of years that had accumulated upon it. The rafters are in place, and to-day Contractor Kendler will complete the work.

Preparing Book Contracts. The Attorney General is now preparing the contracts to be made with the publishers of the schoolbooks that have been accepted by the State Board for use in the public schools.

Girls just out of school are not equipped for the ordinary household duties of wives, and for the cares and trials of motherhood. They should, after leaving school, spend some time after leaving school, spend some time with their parents, giving their parents the pleasure of their companionship and learning something of the every-day

learning something of the every-day work that will be theirs as wives,
"I was thirty-eight when I married and my wife was twelve years my junior. We are happy and contented with our lot and have four children—three girls and one boy—all vigorous and healthy physically and mentally. Hence my reasons for advocating a mature age before marriage."

PIG IRON TO GO UP.

Sloss-Sheffield Co. Placing Its Entire Output-Activity in Trade Major Hugh W. Adams, selling agent of the Sloss-Sheilleld Company, reports that the entire output of the plants be-

of the Sloss-Sheileld Company, reports that the entire output of the plants belonging to this company, which amount to 1,400 tons of pig iron a day, has been sold as rapidly as produced thus far this month, and that the company has advanced the price of southern foundry No. 2 from \$9.25 to \$9.26 a ion, effective to-day, Major Adams says that the casting and slove manufacturers are buying heavily this month, and that there is also considerable demand from the manufacturers of agricultural implements.

The Westingsbouse Electric Company, which is the largest consumer of foundry pig iron in the United States, has also been a large buyer this month, and the General Electric Company has been buying freely and is in the market to-day for electrical equipment both from the domestic consumers and exporters is forcing this branch of buyers into the market, and the fact that the buyers generally are beginning to realize that prices have changes may occur from the present will be upward, is also tending to stimulate trade.

Major Adams says that the statement

Party Regularity.

Party Regularity.

A few Domocratic papers in the State, petably the Statunton Speciator, are openly expressing dissatisfaction with the work of the St. Louis convention. The Speciator having predicted the overwhelming defeat of Judge Parker next November, the Richmond Times-Dispatch makes this neat comment:

"No newspaper in the State of Virinia has been a greater sticker for party Jegularity; no newspaper has been more severation in 1886, refused to support Mr. Bryan, than the Staunton Speciator. It is most remarkable, therefore, that this paper, of all others, should now be training its guns upon the man who was nominated for the presidency by the National Democratic Convention, and where nomination was made unaltimous, Mr. William, Papers which sinke no claim to hide-bound regularity are not inconsistent when they refuse to support party action of which they do not approve, but the hide-bounders put they refuse to a remarkable position, when they refuse to take their own medicine.

She Did Not Resign

Since Dio Not Resign
Editor of The Times-Dispatch;
Sir.—I wish to correct the erroneous impression given out by your correspondent in the paper of July 17th that I had resigned my school at Black Creek. I wish the public to know when my term ended last May it was no longer mine, but deny move emphatically having said twould decline to teach the Black Creek School if the school board in Henry district saw fit to give the school back to me, You's very truly.
